On May 3, Grade 11 students will be attending college. Experience OC is an event put on by Okanagan College to simulate post secondary course registration, and to provide students with an experience in a college course with post secondary instructors. Students go through the process of online registration and course selection depending on interest and availability. Once at the college, the instructor teaches the one hour course as they would on a regular college course. This is a valuable experience for the students to learn about the post secondary education system.
